BLOSSOM NEWBORN PHOTOGRAPHY

The next stage here at Blossom is our Newborn Photography which is offered between the first 3 to 14 days of your newborns life

During these first few precious days, your baby will still curl up into the fetal position and by using fabulous textures and colours in the form of blankets, bowls and baskets we create fine art images for you to proudly display as your babies first official images.

Due to the nature of the photography, we offer flexible session times which are paced out to accommodate feeding, changing & soothing your baby, so you can relax and enjoy it too.
